All orders received prior to the increase must be scheduled for immediate release and not exceed one-month's typical historical usage. Orders placed with delivery requested for future dates beyond July 8, 2019 will be subject to pricing at time of shipment.

Apollo® has added paperless invoicing as an available feature for our customers. By requesting this option from your regional manager, factory representative or customer service contact, we will send an electronic invoice to a predetermined email address in lieu of a mailed document.

We very much appreciate your support and continued business.

Sincerely,
