

"Apollo"® Flow Controls

May 10, 2018

To: Our Valued "Apollo" Flow Controls Customers

Subject: Price Increase – All "Apollo" and EPC Products

Effective June 11, 2018, "Apollo" Flow Controls products will undergo an average weighted price increase of 5.5% on commercial and industrial valve portfolios. Despite our continuous efforts to reduce the manufacturing costs of these products, inflationary pressures such as raw material, tariffs, labor, energy and utility costs, insurance, and transportation have necessitated this action.

Backflow will receive a 10% increase.

Items with no change:

Apollo Press Fittings
Apollo PowerPress Fittings & Valves

To ensure that you have the most current and accurate pricing information, our newest "Apollo" Products price booklet will be posted on the Apollo website (www.apollovalves.com) before the June 11, 2018, effective date. By visiting the site, you may download the latest list prices in .csv and .pdf format as soon as the new prices are posted.

Apollo has added "paperless invoicing" to our available customer features. By requesting this option from your Regional Manager, Representative or Customer Service contact, we will send an electronic invoice to a predetermined email address in lieu of a mailed document.

If you have not yet signed up for the Apollo/Conbraco interactive website "Apollo Online," please request an application from your Apollo/Conbraco Regional Manager, Representative, or download the application from the login page at <http://Apollo.Conbraco.com>.

We very much appreciate your support and continued business.

Sincerely,

"Apollo" Flow Controls
Don Russell
