

Dear Valued Customers,

As has been much reported in the news, the US Commerce Department has imposed a 25% tariff on an additional \$200 Billion worth of Chinese goods as part of the section 301 tariffs. This tariff impacts a wide range of products including a large portion of items offered by Everflow Supplies Inc. Although the final amount of the tariff is 25%, the US Commerce Department has split the 25% into two effective dates. Effective September 24th, 2018 a 10% tariff has been imposed on the Everflow products listed below. This tariff will increase to a total of 25% effective on January 1, 2019.

As a result of the impact of these tariffs, we are forced to raise the net and list prices on the products listed below by the % indicated with an effective date of **Friday September 28, 2018**. We will not be able to extend price protection at the old prices. A complete list of the products impacted and the associated new list price sheets will be available soon.

Products	%
Merchant Coupling	10%
Grooved Fittings	10%
Faucets & Accessories	10%
Steel & Copper Headers	10%
